HOW THE POLL WAS CONDUCTED

This poll was conducted for Telemundo by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from October 1 through October 4, 2018. A total of 625 registered Hispanic voters were interviewed statewide by telephone in New Jersey. All indicated they were likely to vote in the November general election.

Those interviewed were randomly selected from a phone-matched New Jersey voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect Hispanic voter registration by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all Hispanic voters in New Jersey were surveyed. The margin for error is higher for any subgroup, such as a gender or age grouping.

QUESTION: If the November general election for New Jersey’s U.S. Senate seat were held today, would you vote for:

- **Bob Menendez – Democratic Party**
- **Bob Hugin – Republican Party**
- **Murray Sabrin – Libertarian Party**
- **Madelyn Hoffman – Green Party**
- **One of the other candidates**
